

# Abc distribution box standard

## Overview

Slim-line, compact model designed for wall or pole mounted options, manufactured from a UV stable flame retardant glass filled nylon, the box fully meets the requirements of BS 7656 / ENATS 43-14. Pole mounted ABC distribution boxes are 200A rated and can supply up to 9 service cables balanced over three phases. A high grade engineering thermoplastic has been selected to cope with the harsh installation conditions which include constant exposure to the effects of UV rays, frost, wind and. The single -phase distribution box is designed to accept incoming conductors with a maximum size of 120mm<sup>2</sup> and 3 service cables of up to 35mm<sup>2</sup>. Will suit CNE or SNE type cables. Note: The equipment described in this data sheet must be installed by suitably qualified personnel according to applicable Local / National. The (FGRP) SMC, ABC Distribution Boxes are used in low voltage Distribution network. The boxes are fixed / erected on the RCC / PSC pole with fixing Clamps, Nuts, Bolts and Washers.
