

# Angola Communication Distribution Box

## Overview

Telecommunications in Angola include telephone, radio, television, and the Internet. The government controls all broadcast media with a nationwide reach. In 2001, toward the end of Angolan Civil War, the government began adopting regulations to liberalize the telecom industry. This enabled private investments to revitalize the country's telecommunications infrastructure which had been severe. Infrastructure • 29 (2009). • provides connectivity to and. • 303,200, 116th in the world, two lines per 100 persons (2011). • 13 million lines, 65 lines per 100 persons (2011). • International : 244. • 21 AM, 6 FM, and 7 shortwave radio broadcast stations (2001) • 630,000 radios (1997) The state-owned (RNA) broa. • 6 television broadcast stations (2000) • 150,000 televisions (1997) The state-owned (TPA) provides terrestrial TV service on two cha. • Internet hosts: 20,703 hosts, 116th in the world (2012). • Internet users: 3,058,195 users, 78th in the world; 16.9% of the population, 151st in the world (2012). • Fixed broadband: 27,987 subscriptions, 124th in the world; 0.
