

Cameroon Mobile Communication Fiber Optic Cable Laying

Overview

Cameroon's incumbent telecom operator, Camtel, has announced the deployment of an additional 3,500 km of fiber optic cable starting in 2024. Speaking about the project last October 17 during the Yaoundé Digital Week, MD Judith Yah Sunday said it primarily targets rural areas. Implementing this. In recent days, many consumers in Cameroon have taken to social media to voice their frustration over the declining quality of services from telecom operators Orange and MTN. The country scored just 4 out of 100 this year, a drop from 7 in 2023, and was the only member of the Central African Economic and. MTN GlobalConnect and CAMTEL have joined forces to establish a strategic partnership that will see the commercialisation of four submarine cables in the West and Central sub-region of Africa. It aims to complement the 12,000. Government has officially handed over to Cameroon Telecommunications, CAMTEL, a 78-strand fibre optic cable deployed overhead in the Southern Interconnected Grid, SIG, along the Yaounde-Boumnyebel-Edea-Kribi-Douala-Limbe-Nkongsamba-Bafoussam-Bamenda segment. The infrastructure was symbolically.
