

China-Europe Optical Cable Upgrade

Overview

Chinese state-owned telecom companies are planning a large undersea fiber-optic cable network called EMA (Europe-Middle East-Asia). The \$500 million project, led by China's HMN Technologies, will connect Asia, the Middle East, and Europe. The European Commission has doubled its anti-dumping duties on optical fibre cables from China, following an investigation which found that Chinese exporters of optical fibre cables were attempting to impede the effects of the original measures. The proposed EMA (Europe-Middle East-Asia) cable would connect Hong Kong to China's island. As Europe pushes forward with ambitious infrastructure upgrades—think 5G rollouts, smart cities, and greener data centers—the demand for reliable, high-quality fiber optic cables has never been higher. 7% and 44% on. Glenrothes, UK, December 8, 2023 – As a manufacturer of optical fibre cabling and network infrastructure, Leviton Network Solutions embraces the recent move by the European Commission to protect the EU's fibre optic cabling industries from further injury by Chinese exporters.
