

How much does Finnish optical cable cost

Overview

The average export price of optical fiber cables from Finland rose to \$38,689 per ton in 2024, marking a 19% increase from the previous year. This increase follows a period of buoyant growth, although prices have not returned to the peak levels seen in 2019. Fiber-optic cable materials typically cost \$1 to \$6 per linear foot, depending on fiber count and cable type. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. Single-mode fiber costs less per foot than multimode fiber, but it requires more. This report presents a comprehensive overview of the Finnish optical fiber cables market, the effect of recent high-impact world events on it, and a forecast for the market development in the medium term. Overall, the import price saw a slight expansion. Thanks! But do you know how much it costs when the bandwidth (download and upload) is unlimited?

Do you mean download limits?

Most ISPs don't have them, at least I can't think of any that do.
