

How much does a new surveillance terminal box cost

Overview

Here is our interactive CCTV System Calculator where you can quantify your own system and build an instant quote online today. This tool allows you to compare the costs of different resolutions at varied recording durations. Here is what you can expect to pay in 2026 for each major camera type. Bullet cameras feature a cylindrical housing. Commercial-grade systems cost significantly more —expect \$700–\$1,500 per camera installed for enterprise-grade equipment, with total projects ranging from \$1,500 to \$50,000+. CCTV installation costs depend on several factors; the type of system you choose, the number of cameras you need, the camera's location, and any additional materials required for the job. Comprehensive Package: Combining several cameras and advanced features like remote. Surveillance systems last anywhere from five to 20+ years, so condensing all cost considerations down to the initial expense fails to consider the bigger picture. By: Ricardo Marranita, Product Growth Manager, Axis Communications; E-mail: ricardo.
