

How to check the optical module serial number on Huawei devices

Overview

Run the display transceiver [interface interface-type interface-number | slot slot-id] [verbose] command to view information about the optical module on a specified interface. Figure 1 Schematic Diagram of Optical Module Connected to Switch 1. Optical Module Status Check Run the. Here are the common commands to use to display hardware-related information on Huawei Routers. The inventory information such as serial number, product code,optical module,device, power,voltage,temperature,fan, CPU and memory are very important on operation and troubleshooting purposes. Your email. Taking the Huawei 5700 series switches as an example, the commands to view optical module information are as follows:
Transceiver Type :1000_BASE_SX_SFP Connector Type :LC Wavelength(nm) :850
Transfer Distance(m) :300(50um),150(62. < HUAWEI > display elabel.
[Port_XGigabitEthernet4/0/1] /\$ [ArchivesInfo Version] /\$ArchivesInfoVersion=3. 0
[Board Properties] BoardType=PLRXPLSCS4322N.

How Can I View the Serial Number of an Optical Module?

How Can I View the Serial Number of an Optical Module? - S7700 V200R021C10 Configuration Guide - Device Management - Huawei Displaying the Device Serial Number

Checking Optical Module Information of the Interface

Diagnostic information: //Diagnostic information of the optical module. If this field displays -, the information cannot be obtained or is inaccurate.

How Can I View the Serial Number of an Optical Module?

This document describes the configurations of Device Management, including device status query, hardware management, CSS, SVF, PoE, OPS, OIDS, energy-saving management, information

Huawei enterprise switches

Some non-certified optical module problem in the design of the data bus, when using such an optical module, will lead to a corresponding device data bus abnormality, and the data is on the data bus

How do I check device serial number|HUAWEI Support Global

HUAWEI IMEI number is the individual serial number for HUAWEI phones, Laptops, Tablets, Watches and Smart Home. The IMEI number can be accessed via the system settings or enter the string * #

How Can I View the Serial Number of an Optical Module?

Displaying Health Check Information About a Device Displaying Alarm Information Displaying the CPU Usage Displaying the Memory Usage Hardware Management Stack Configuration Intelligent

Check device Serial Number | HUAWEI Support Australia

How do I check device serial number? Check the device serial number on the back label on the device back cover. Check the device serial number at the inside and

Check device Serial Number | HUAWEI Support UK

HUAWEI SN number is an individual serial number for HUAWEI phones, Laptops, Tablets, Watches and Smart Home. The IMEI number can be accessed via the system settings or enter the string * # 06 #

Determining the Serial Number of an Optical Module

Method 2: Determine the Optical Module Serial Number Onsite You can view the label attached to an optical module to determine the serial number of the optical module.

Huawei Technical Support

Discover how to view the serial number of an optical module with step-by-step guidance from Huawei Technical Support.

Displaying Hardware Information on Huawei Routers

Here are the common commands to use to display hardware-related information on Huawei Routers. The inventory information such as serial number, product code,optical module,device,

How Can I View the Serial Number of an Optical Module?

Method 2: Obtain the Optical Module Serial Number Onsite You can check the label attached on the optical module to obtain the serial number.

How To Read Optical Module Information On Huawei Switches

The following uses the Moduletek SFP-10G-LR module connected to a Huawei S6700 switch as an example to introduce how to read information of the connected optical module on a

Huawei Switches Viewing Optical Port Receiving and Sending

Use the command display transceiver to view the optical module information of all optical ports, and use the command display transceiver interface interface-type interface-number to view the

Displaying the Device Serial Number

Method 2: View the Label Attached on an Optical Module to View the Serial Number You can check the label attached on the optical module to obtain the serial number.

How Can I View the Serial Number of an Optical Module?

Run the display elabel command to view the electronic label of an optical module. BarCode indicates the serial number of the optical module. < HUAWEI > display elabel

Huawei Technical Support

Learn how to display optical module information on Huawei devices using specific commands and understand the diagnostic details of optical modules.

Displaying Optical Module Information

Run the display transceiver diagnosis interface [interface-type interface-number] command to view diagnostic information about a specified optical module. This command displays the digital diagnostic

How Can I View the Serial Number of an Optical Module?

How Can I View the Serial Number of an Optical Module? - S300, S500, S2700, S5700, and S6700 V200R022C10 Configuration Guide - Device Management - Huawei About This Document Device

Checking Optical Module Information of the Interface

Run the display interface interface-type interface-number transceiver [verbose] command to check optical module information. <HUAWEI> display interface 10ge 1/0/1 transceiver verbose

Huawei Optical Switch View Optical Module Commands

Taking the Huawei 5700 series switches as an example, the commands to view optical module information are as follows:
