

Huawei East Africa Optical Cable

Overview

Huawei will build almost 2.500 miles of fiber optic cable in Republic of Equatorial Guinea, the project will take two years and will bring high-speed Internet access to most of the people in the African country. The 15,000-kilometer (9,320-mile) Peace cable is part of Beijing's so-called Digital Silk Road initiative that involves deploying information and. Pakistan & East Africa Connecting Europe (PEACE) is initially a 15,000 km submarine cable from Pakistan to France, extended from Pakistan to Singapore for an additional 6,500km, with main trunk landing in Singapore, Pakistan, Kenya, Egypt and France and branches to the Maldives, Malta, Cyprus, etc. 2-billion) undersea cable connecting China to Europe and Africa, which counts Huawei Technologies as shareholder, has landed in Kenya. It is owned by Peace Cable International, a subsidiary of Hengtong Group. The 15,000 km cable system is deployed along. The launch of 2Africa enables us to offer our customers seamless connection between Africa and Europe, together with our SEA-ME-WE 5 and AAE-1 subsea cable resources to further extend to Asia, which is an important milestone of our global development strategy," said Jessica Gu, Director & Chief. In a significant advancement for transcontinental connectivity, China's Pakistan and East Africa Connecting Europe (PEACE) Cable has emerged as a critical component in Beijing's digital infrastructure strategy across the Middle East and North Africa (MENA) region. The 15,000-kilometer undersea.
