

IDC Data Center Rack Equipment

Overview

The iDCmini Family integrates all computer systems and associated components, such as a UPS, fire suppression and monitoring in a single rack. It features high reliability, easy relocation and cost-effectiveness. The Hengchang IDC rack (Internet Data Center Rack) is a 19 inch standard housing for communication equipment. With ALLE, you can monitor and manage all aspects of your data center in real-time, from a single pane of glass. The first in Asia to deploy 50kW high-density power. To ease the pressure in datacenter investment, a series of all-in-one datacenters that can meet the requirements of a traditional datacenter, the iDCmini Family, is launched by DCL Communication. It is a completed turnkey solution that offers an adequate and secure environment to fully protect IT. EDP Distribution supplies racks for use in IT and Logistic environments. As well as working with leading manufacturers EDP offers it's own range of cabinets which. Compliant with ANS/EARS-310-D, IEC297-2, DN41491, PART1, DIN41494, PART7, GB/9520. Designed and developed to meet the requirements of modern data centers for green energy, emission reduction, modularity, and intelligent monitoring. Description Model: IDC001 Series Part Number: IDC001-A-22666012 Huamai IDC cabinet system is a new generation product with high quality designed to meet the requirements of modern data center Huamai IDC cabinet system is a new generation product with high quality designed to meet the requirements.
