

India Optical Cable Mileage

Overview

As of March 2025, the country deployed nearly 700,000 route kilometres of optical fibre cable, with southern states like Tamil Nadu, Kerala, Andhra Pradesh, and Telangana leading the expansion. 98 lakh route km of optical fibre cables have been laid across the country during the last three years, the Central government informed the Parliament on Thursday (31 July). The information was given in response to a question in the Rajya Sabha, by Union Minister of State for Communications. The Big Tech is moving toward an annual spend of Rs 5000 crore in fibre cable networks. The Indian telcos and the government are also planning fibre deployments. India has shown substantial progress in expanding its optical fibre cable (OFC). As on September 30, 2022, a total of 35. They are laid by specially designed cable-laying ships, complex platforms containing a large turntable on which several thousand tons of cable are wound. Once one end of a cable is connected to a. As on 30.

Optic Fibre Cable Market in India 2021

Optic Fibre Cable Market in India 2021 Table of Contents (draft) Large-scale fiberisation continues to be a key trend for the Indian telecom sector. Fibre-based broadband gained fresh impetus as millions of

Illuminating the Future: Trends and Leaders in India's

India's telecommunications landscape is undergoing a radical transformation, largely driven by advancements in fiber optic cabling technology. As the nation strides

India Fibre Optic Cables Market (2025-2031)

India Fibre Optic Cables Market Import Shipment Trend (2020-2024) The India fibre optic cables market import shipments experienced a significant decline with a CAGR of -8.7% from 2020 to 2024. The

A Roadmap for Securing India's Undersea Cables

This report examines India's dependence on undersea fibre optic cables for its financial well-being. It explains the complexities involved in the laying and maintenance of these cables, lists the

India Optical Fiber Cables Market Size and Outlook 2031

Since 2018, India has laid over 1.75 million kilometers of optical fiber cable, driven largely by initiatives like BharatNet.

India Fiber Optics Cable Market Size, Share, Growth, Statistics ...

The India optical fiber cables market has been segmented on the basis of cable type, material type, and end-user. Based on cable type, the market is segmented into single-mode cable and multi-mode cable.

India Optical Fiber Cables Market

India Optical Fiber Cables Market Drivers and Restraints: Optical fiber cable (OPC) is used as the medium and technology that refers to transmit information. The

Top 10 Best Fiber Optic Cable Manufacturers In India

Top 10 Best Fiber Optic Cable Manufacturers In India As demand for higher bandwidth and faster data transmission grows, the production and innovation of

Over 6.98 Lakh Route Km Of Optical Fibre Cables Laid

Over 6.98 lakh route km of optical fibre cables have been laid across the country during the last three years, the Central government informed the

India's Internet Capacity To Increase Fourfold By 2025

India's digital infrastructure is on the verge of a revolutionary transformation, with three significant undersea cable projects expected to go live

Optical fibre cable rollout in India: Nearly 7 lakh km

Optical fibre cable rollout in India: Nearly 7 lakh km covered by March 2025 India laid 698,010 route KM of Optical Fibre Cable by March 2025, a

NHAI Plans to Build Nationwide Optical Fibre Network

NHAI has shown interest in the nationwide rollout of optical fibre networks along major highways under the PPP model. With a vast highway

Sufficiency of Fibre Networks

Optical Fibre Cable has the enormous capacity to handle the 5G connectivity. Further, to facilitate faster and easier deployment of telecom infrastructure, Government has amended the Indian Telegraph

Optical fibre cable rollout in India: Nearly 7 lakh km

India has shown substantial progress in expanding its optical fibre cable (OFC) network, laying a total of 698,010 route kilometres across the country

India Optical Fiber Cables Market Size & Forecast to 2031

The Indian Optical Fiber Cables Market, valued at USD 0.55B in 2025, is projected to reach USD 1.03B by 2031, growing at a 11% CAGR.

Space and Undersea Cables

Space and undersea cables are critical to India's communications infrastructure. While India's space programme has been largely successful, in

India's fibre-optic expansion in 2025 — Nearly 700,000rkm deployed ...

As of March 2025, the country deployed nearly 700,000 route kilometres of optical fibre cable, with southern states like Tamil Nadu, Kerala, Andhra Pradesh, and Telangana leading the

35.5 lakh route km of OFC laid across India to

As on September 30, 2022, a total of 35.5 lakh route kms optical fiber cable (OFC) has been laid in the country, which will facilitate the increasing

India's Telco and Infrastructure Groups: Fiber Optic Network Growth ...

Growth in fiber optic network deployments are essential to further improve the quality of telecom services and support the surging mobile Internet demand as well as have potential to bring

Layout 1

The Optic Fibre Cable Market in India report will help you to: Assess the OFC requirement and deployment trends in India Understand the current demand-supply dynamics and growth drivers

Sufficiency of Fibre Networks

As on 30.09.2022, a total of 35.5 Lakh Route Kms Optical Fibre Cable (OFC) has already been laid in the country, which will facilitate the increasing demand for better bandwidth, resilient and high

India Fiber Optic Cable Market 2024-2030

INDIA FIBER OPTIC CABLE MARKET INTRODUCTION Fiber optic cables are high-speed transmission cables that are designed to transmit light

Map: The World's Network of Submarine Cables

Satellites get all the glory, but 99% of the world's data actually flows through a vast network of fiber optic submarine cables.

India's fiber-optic revolution — Weaving a web of influence

The National Highways Authority of India plans to lay a nationwide optical fibre cable network along its 146,000 km of highways under a public

Digital transformation in 11 years of Modi govt: Over 42

So far, more than 42 lakh km of Optical Fibre Cable (OFC) has been laid — almost 11 times the distance between Earth and the Moon—ensuring

Promising Road Ahead for the Indian Optical Fibre Cable Industry

The Indian optical fibre cables market is attaining good traction and is expanding to various regions in the country. Also, the

India's fibre-optic expansion in 2025 — Nearly 700,000 rkm deployed ...

India's fibre roll-outs in 2025 are marking a dramatic step-change in both coverage and capacity, turbocharged by a convergence of public and private sector initiatives. As of March 2025,

India completes nearly 0.7 million kilometres of optical fibre cable ...

The continued growth of the OFC network plays a critical role in expanding broadband access and enabling digital services across India. Further, the OFC rollout aims to strengthen digital
