

# Nepal Bridge Construction

## Overview

Construction of the long-awaited signature bridge over the Narayani river has finally begun a year and a half after the ceremonial groundbreaking of the 'iconic bridge'. Then prime minister Pushpa Kamal Dahal and minister for physical infrastructure and transport Raghuraj Mahaseth performed the. Construction of several bridges along the Bheri Corridor road project remains stalled for years, even as significant progress has been made in road development along the Jajarkot-Dolpa section. The 118-kilometre road track, opened by the Nepali Army in 2019 and later handed over to the Road. Nepal's construction sector is at the heart of national development, with major infrastructure projects underway to strengthen connectivity, boost energy security, and enhance urban living standards. The plan was unveiled during a press briefing on Wednesday, where officials outlined key infrastructure projects. The bridge at Chisapani on the Karnali River under the East-West Highway has only one tower and cable. Ships will also be able to pass through the towers, which will be placed 220 meters apart on either side of the bridge. Trail bridges in Nepal has been a highly successful, long-standing Swiss development intervention.
