

Nordic Integrated Power Supply Manufacturer

Overview

Nordic power Supply is a Swedish company that develops and sells quality equipment for power line construction. We build and adapt products to the customer's request. FSP Power Solution showcases high-performance chargers for electrified industrial vehicles up to 1800 W at iVT Expo 2026, featuring integration-ready designs and system-level performance. We use cookies on our website to give you the most relevant. ARRAffinity cookie is set by Azure app service, and allows the service to choose the right instance established by a user to deliver subsequent requests made by that user. This cookie is set by GDPR Cookie Consent plugin. The cookie is used to store the user consent for the cookies in the category. FSP Power Solution GmbH is a European representative of the FSP Group, one of the world's leading designers and manufacturers of power supplies. Powerbox is a prominent manufacturer of power solutions, specializing in AC-DC power supplies and DC-DC converters, making it highly relevant for those seeking power supply expertise.

Nordic Grid Development Perspective 2023

The Nordic power system is well integrated due to a long history of cross border cooperation on grid, operations, and market development. This has been a core prerequisite for the high level of

Nordic Semiconductor introduces the new nPM1304 power

The nPM1304 PMIC features a highly integrated ultra-low-power solution and precise battery meter functionality, complementing Nordic's award-winning nPM1300 PMIC. The nPM1304

Best 8 Programmable High Voltage DC Power Supply Manufacturers

Testhouse Nordic AB specializes in helping customers choose and install programmable high-voltage DC power supplies that match their exact test needs. They focus on safety, precision,

About FSP Power Solution

FSP Power Solution delivers certified, high-efficiency power supplies—engineered in Germany for AI, medical, industrial, and e-mobility applications.

What the Nordics' Experience of Power Market Integration Teaches Us

Key success factors for the integration of the Nordic power market The success of cross-border power trading in Scandinavia can largely be attributed to the high degree of regional

Nordic PMICs – Integrated Solutions for Modern Power Management

Nordic PMICs – integrated solutions deliver advanced power management for today's compact electronics. These PMICs combine multiple power functions, reducing the need for extra

Merus® ESS Energy Storage System

Built with Merus® PCS, the first TSO (Transmission System Operator) approved grid-forming BESS in the Nordics, Merus® ESS combines advanced grid support

New NordicEPOD factory opens to boost production of

Intelligent power management company, Eaton, and data centre design and build company CTS Nordics, have officially announced the opening of the
