

# Qatar Long Distance Optical Cable G 652D

## Overview

652D is a robust, non-metallic, duct installation fiber optic cable designed to support long-distance communication requirements. Fiber Count: 96 fibers arranged in 8 loose tubes. The GYFTY-96 G. It contains Soft Tubes, for fast and easy access to the fibres (without tooling), to avoid the. G. This allows the fiber to operate across a. G652D fiber optic (non-dispersive displacement single-mode fiber) It is suitable for transmission systems across the entire spectrum. Optimizes attenuation and dispersion characteristics across this spectrum, while improving performance against macrobends in the L-band (1565 a 1625. This Specification covers the design requirements and performance standard for the supply of optical fibre cable in the industry. ARTIC ensures a stable quality control system for our cable products through several programs including ISO 9001, ISO 14001 and ROHS.
