

# The distribution box is installed inside the screen

## Overview

A distribution box is a low-voltage distribution box composed of switchgear, measuring instruments, protective appliances, and auxiliary equipment assembled in a closed or semi closed metal cabinet or screen according to electrical wiring requirements. Is your LED screen electric box installed in the right place?

A friend who runs a shopping mall complained to me two days ago: "Brother, the large screen of my newly installed advertising trips at any time. When the LED screen is started, due to the charging characteristics of the capacitor, the instantaneous current is extremely large, so it is very easy to impact the power grid, which may. How to install the mounting bracket?"

Many engineers don't know how to install this accessory. With the latest design, it can be confusing. Assemble the mounting bracket 4. Our selection includes indoor and outdoor solutions, fixed installation, and rental-specific boxes with various power capacities to suit diverse needs.
