

Unit Four Protection Distribution Box

Overview

This unit is ATEX & IECEx certified, supporting global safety standards for explosive gas and dust atmospheres. Available in 24V, 110V, and 220V configurations, it features IP66 protection, optional SY braided or rubber cables, and custom cable lengths (5 to 100 meters). The Offgridtec distribution box (MPN: 024599) enables safe, clear, and weatherproof distribution of electrical connections. With protection class IP66, they are dustproof and protected against strong water jets – ideal for outdoor use, damp rooms, industrial facilities, or EV charging stations. The. Its size and high level of flexibility make the REDline Power Box Twin the ideal main power distributor for vehicle electrics. Individual adaptations are possible. You will benefit from the following features: Open Data Sheet Tell us your requirements and receive a proposal including a placement. Atexdelvalle offers world-class explosion-protected solutions guaranteeing highest quality and performance with no compromise. Manufacture custom made Local Control Stations & Distribution Boxes, local control panel boards and stations, explosion protected control units, distribution. The Faithfull TLDB4L 110V 4 Way Distribution Box is capable of splitting the power from a single cable input into a four way output making it ideal for running multiple power tools and site lighting. It comes with a 5 metre cable with a 110 volt socket plug that can be used in conjunction with. engineered for safe power distribution in hazardous areas. Ideal for Zone 1 & 2 (Gas) and Zone 21 & 22 (Dust), offering IP66 protection, GRP enclosure, and multiple voltage options (24V / 110V / 220V).
